2. *Architectural Acoustics Design Guide*, by James Cowan (McGraw Hill, 2000)

COURSE WEBPAGE:

Login at <http://myunl.unl.edu>

GRADING POLICIES:

Homework and Projects – 50% of Acoustics grade

- Due at beginning of class
- 10% penalty if received between beginning and end of class on due date
- 20% penalty if received between end of class on due date and beginning of following class
- Not accepted if more than one week late
- If you wish, you may work together with only one other student on homework problems. Clearly note the other student's name on your homework. Do not simply copy someone else's work, though. You must understand and be able to justify each step in the problems for full credit.

Exam (Wednesday May 3, 2006) – 50% of Acoustics grade
